

Campus Hazing Transparency Report

Last updated June 1, 2026

Updated December 23, 2025

In accordance with the Stop Campus Hazing Act (SCHA) and section 485(f) of the Higher Education Act of 1965, the University publishes a report of any student organization that has been found responsible for hazing.

The Campus Hazing Transparency Report includes:

- The name of the organization.
- A description of the violation, including if alcohol or drugs were used in an illegal or harmful way.
- The date when the hazing was said to have happened.
- The date when the university started investigating the incident.
- The date when the university finished the investigation and decided that hazing did occur.
- What the university found during its investigation.
- Sanctions the student group received from the university.
- The date when the university told the student group the investigation finding.

Reports of hazing that did not result in a finding of responsibility are not included. The University will update this webpage as outcomes are finalized and will share the transparency report with the campus community twice a year.

Any student organization that is under active investigation will not appear below, as part of the Hazing Transparency Report.
